

The **Spectrum AcousticPro UHD** is an acoustically transparent (AT) Ultra-Hi-Def electric/motorized projection screen. **The AcousticPro UHD** material is designed to complement in-wall speakers while allowing sound to pass through the material with minimal attenuation. Its tight perforated weave material allows a superior AT performance without sacrificing picture quality. Standard control accessories include an Infrared remote control, 5-12 volt trigger capability, and a detachable wall switch keypad.

Screen Material

- AcousticPro UHD sound transparent projection material allows speaker placement behind the material
- 180° wide viewing angle with 1.0 gain
- Black masking borders enhance picture contrast
- Full HD, Active 3D, and 4K UHD ready
- Not compatible with Ultra/Short-throw Projectors

Control System

- Infrared (IR) remote control
- Detachable 3-way wall switch keypad
- 5-12 v trigger cable included enables Drop/Rise operation to synchronize with the projector's power cycle
- RJ45 input port allows easy integration with 3rd party control systems
- Optional controls: RF remote, Wireless 5-12 volt trigger and In-wall switch

IR remote, 12v trigger, keypad switch

Design and Installation

- Durable black casing for wall/ceiling installations
- Ships fully assembled with standard 3-prong power connection ready to plug and play
- Optional in-ceiling trim kit and 6" & 12" wall/ceiling brackets

Quality and Reliability

- Synchronous motor allows silent operation with extended operational longevity and low power consumption
- Standard 2-year premium warranty
- 3-year ENR-G warranty for Education, Non-profit, Religious, and Government organizations

Durable metal black housing for wall/ceiling installation
